

*We created FanComp with  
the idea to do something  
great for everyone !!!*

## **Our Goal :**

**is to increase your sales by the implementation of our  
inovative system  
"the MoneyPool"**

The "MoneyPool" will be won by lucky fans in  
a raffle of serial numbers !!!

The "MoneyPool" is accumulated from a percentage of the sales of your uploaded property

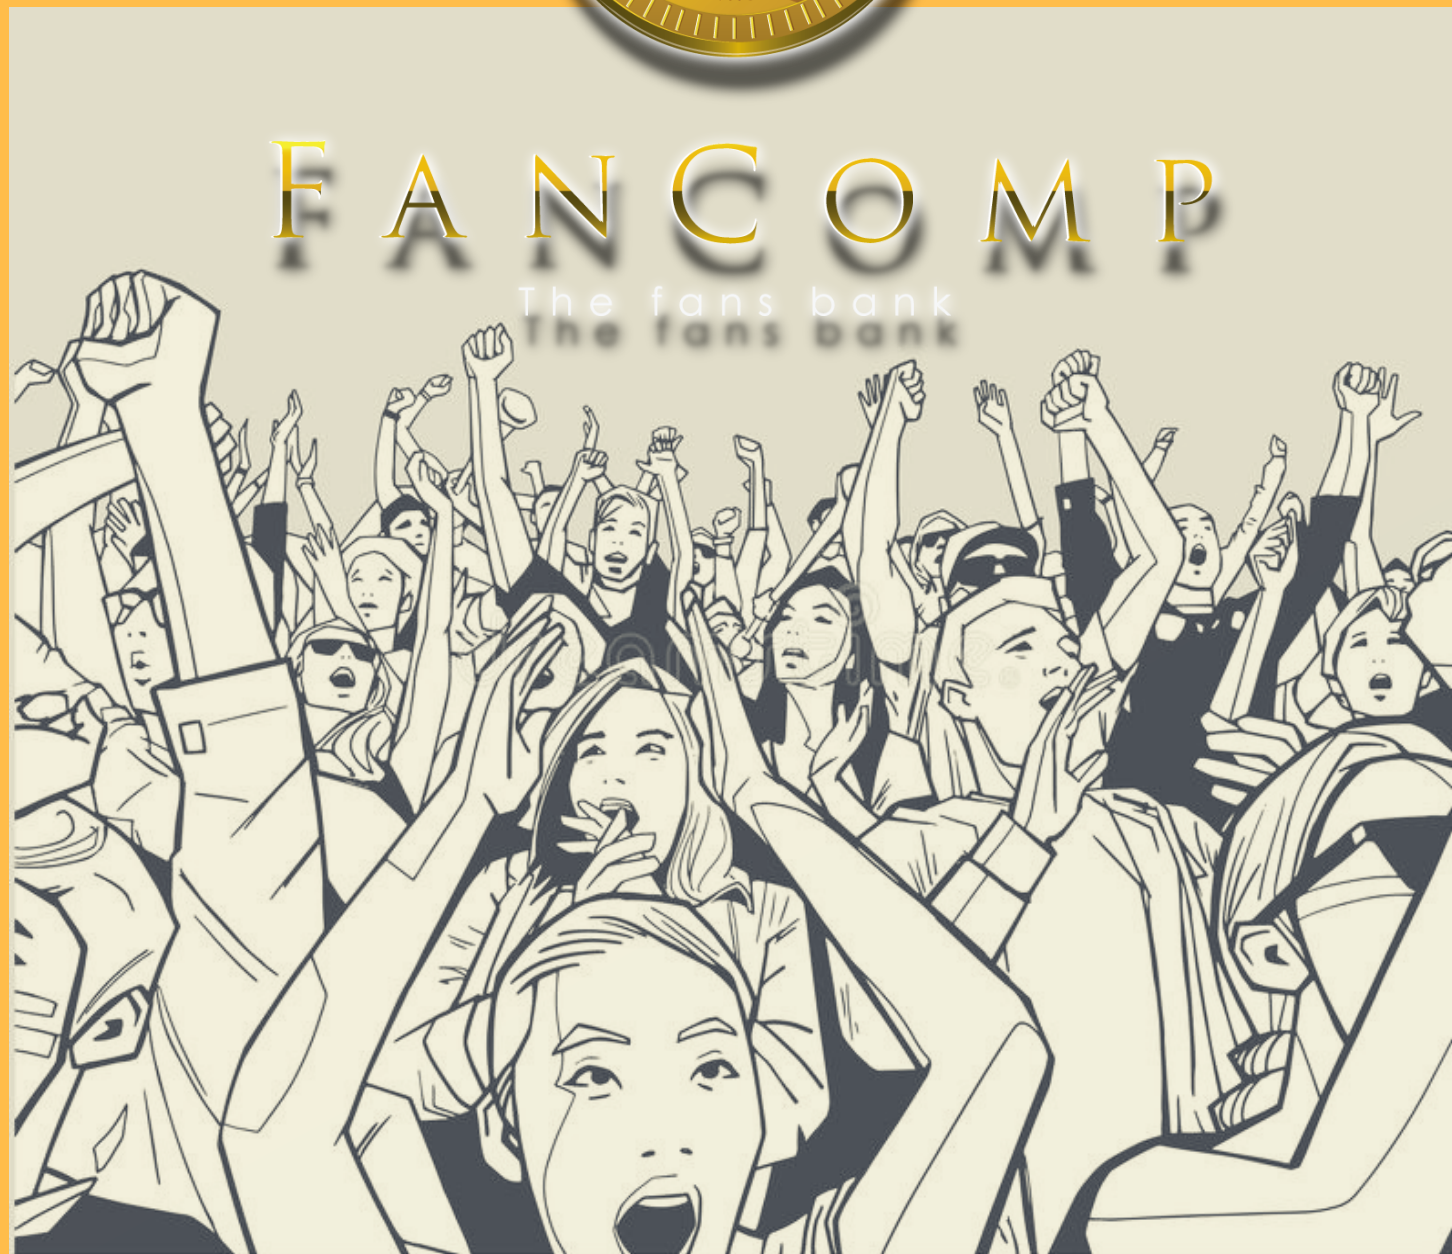

*Here is how it works*

you create a profile on our platform(online store) upload your catalogs of intellectual property, categorize them into albums and list them for sale, and each album will generate its own "MoneyPool" !!!  
for fans to win.

**this is how we drive your  
SALES**

"we are the first and only platform  
in any industry to implement this system"

*The Service we offer :*

is providing publishing labels and their  
artist ,a new storefront platform with the  
technology to increase your sales  
exponentially.
